 with smoother operation.

Ask for it by name.

### The "Small Print"

All prices quoted are subject to VAT and possible delivery charges.  
 Reconditioned and second-hand machines are offered subject to prior sale.

### Tip of the Month

How dusty is your shop?

3 tips to enable you to breathe more easily around your finisher

- (1) Shake the bag daily to force the dust down into the bag and allow the air to pass through better.
- (2) Empty the bag completely every 3-5 days.
- (3) Replace the bag entirely every 2-3 years.

**"Machine is not performing as well as it should?"**

**"Worried about complying with Health & Safety requirements?"**

Unlike other, smaller companies we have **NATIONWIDE** service coverage .

Contact our Service Department and let us make your machine make you more money.
